Dräger PAS AirPack 1

Designed using leading technology and materials, Dräger's range of heavy duty airline apparatus is ideal for use where an extended duration of breathing air is called for. Chemical tank cleaning, toxic spillages or certain tasks when working on offshore installations are all made easier and more comfortable when using the Dräger PAS AirPack 1.

INCREASED FREEDOM OF MOVEMENT

Uninterrupted air supply is provided by the trolley-mounted cylinder(s) to the wearer via a hose reel. As the AirPack can be easily re-located and therefore positioned in a safe zone which is in close proximity to working area, the user need only wear a lightweight harness, such as Dräger's PAS Colt, during operation. This allows the wearer a greater freedom of movement, and less stress and fatigue than they would be subjected to if wearing a conventional self contained breathing apparatus unit.

A WELL THOUGHT TROUGH SYSTEM

The Dräger PAS AirPack 1 is able to accommodate up to four compressed air cylinders of up to 12 litres in capacity and is constructed from an anti-static powder coated steel material.

A 50 metre length of hose is supplied with the AirPack 1 as standard, this can be extended to a length of 100 metres with a range of extension hoses. The trolley hose reel connector is protected with a cover to minimise inadvertent damage being caused. The hose reel is equipped with a winding handle to allow the hose to be easily re-wound onto the reel after use. Outgoing hose distribution is also controlled with a braking system in order to prevent unnecessary unwinding and potential entanglement.

The Dräger PAS AirPack 1 benefits from the world renowned, tried and tested, pneumatics system used on Dräger's successful PSS range of compressed air breathing apparatus. The system incorporates a safety pressure relief valve and the pressure reducer is shrouded in a protective plate for additional safety.

The Airpack has been ergonomically designed to facilitate ease of operation, general handling and mobility.

The Module comprises of:

- Robust welded durable steel frame coated, for corrosion protection, with a tough black anti-static polymeric powder coating.
- Stainless steel fittings.

Dräger PAS AirPack 1 Extended duration breathing apparatus at its best.

DRÄGER PAS AIRPACK 1 TROLLEY MODULE

Pneumatics

The Dräger AirPack 1 Trolley module incorporates the following pneumatic elements;

- Pressure reducer suitable for connecting breathable quality air at an input pressure of either 200 or 300 bar.
- Pressure reducer suitable for supplying breathable quality air at an outlet medium pressure of 8bar nominal. (6 to 10 bar)
- Vent valves, to allow for the independent charging if an individual cylinder.
- High Pressure (HP) gauge, indicating cylinder pressure.
- Medium Pressure (MP) gauge, indicating cascade system or ring main pressure.

Safety features

- Pressure relief valve, to relieve medium pressure from air hoses.
- Whistle Warning Unit High pressure (HPWWU), indicating cylinder pressure to a volume of approximately 55 bar
- Whistle Warning Unit Medium pressure (MPWWU) for use with independent air line source. Indicating cascade system or ring main pressure at approximately 4.5 bar.

Performance

The high performance pressure reducer assembly of the Dräger AirPack 1 is incorporated in the main pneumatic manifold assembly located behind the control panel. Functioning at inlet pressures of 200 or 300 bar the reducer provides a controlled outlet operating medium bar-pressure supply of 8 bar nominal. (6 to 10 bar). A pressure relief valve, incorporated into the manifold, ensures that any 'over pressure' (possible failure of the reducer) will not enter the mediumpressure airline system.

ORDER INFORMATION

Dräger PAS AirPack 1	
Airline trolley, reducer hose reel and 50 metres of hose	33 52 228
Stand alone hose reel	33 52 239
Carry frame and reducer	33 52 241
Trolley excluding hose reel	33 53 008
Quad pack unit to allow the accommodation of 4 cylinders	33 53 471
Dräger PAS Colt Airline Harness Unit Approved to EN139	
Complete with Whistle Warning Unit and push-in Lung Demand Valve	33 52 942
Complete with Whistle Warning Unit and Quick Release Coupling*	33 52 948
Complete with Quick Release Coupling but without Whistle Warning Unit*	33 52 947
Complete with push-in Lung Demand Valve but without Whistle Warning Unit	33 52 941
Dräger PAS Airpack Harness	
Complete with Whistle Warning Unit and push-in Lung Demand Valve	33 54 483
Complete with Whistle Warning Unit and Quick Release Coupling*	33 54 481
Complete with Quick Release Coupling but without Whistle Warning Unit*	33 54 480
Complete with push-in Lung Demand Valve but without Whistle Warning Unit	33 54 482
Accessories Standard	
Dräger Panorama Nova P (EPDM)	R 52 9 72
Dräger Panorama Nova PE (M45 x 3) EPDM	R 51 4 92
Dräger Panorama Nova RA (M40) EPDM	R 52 8 50
Dräger Panorama Nova (Silicone)	R 53 0 70
3 Metre extension hose complete with CEJN	33 52 463
5 Metre extension hose complete with CEJN	33 52 464
10 Metre extension hose complete with CEJN	33 52 465
20 Metre extension hose complete with CEJN	33 52 466
30 Metre extension hose complete with CEJN	33 52 467
50 Metre extension hose complete with CEJN	33 52 468
Y Piece	R 27 9 45
Pressure reducer	33 57 357
Filter unit	AL 0 12 30
Connector set (Output CEJN Female)	AL 0 12 34
Connector set (Input CEJN Male)	AL 0 12 72
Connector set (Input Union nut)	AL 0 12 33
Connector set (Input Union nut)	AL 0 12 3

*Units equipped with the Quick Release Coupling will need to purchase the Lung Demand Valve separately

Pressure reducer For use with a factory ring main.

Filter unit Remove 99.999% of dirt, oil water vapours and odours.

COMPONENTS

Dräger Panorama Nova Full face mask for use with an extensive range of Dräger respiratory protection devices. Available in either EPDM or Silicone.

Y-Piece For 2 user operation compatible with Euro Couplings.

Stand Alone Hose Reel Can be used in conjunction with carry frame. Contains 50 m of airline hose.

Hose Assortment of extension hoses are available.

+91 99. 1890 887

Quad Pack An extension to allow the accommodation of up to 4 cylinders.

Carry Frame 2 Cylinder carrying with pneumatics.
