

These harnesses are designed specifically for fall arrest. In particular, they allow for the attachment of ABSORBICA energy-absorbing lanyards or an ASAP mobile fall arrester.

• **Comfort for all work phases**

NEWTON harnesses are designed to not interfere with the worker's movements. The anatomical and lightweight design is close-fitting, while giving optimal freedom of movement.

• **Easy to use**

**Harness is easy to open and close**

The sternal FAST automatic buckle allows the harness to be opened and closed simply and quickly.

**Immediate access to tools**

The equipment loops simplify tool organization and the keepers allow a TOOLBAG pouch to be added.

• **Available in international versions**

The NEWTON harnesses that are certified to all North American, European and Russian standards have additional features.

**Stowage for lanyard connectors**

The harnesses have a stowage system for the MGO connectors on fall arrest lanyards on each shoulder strap. In case of a fall, the system releases the MGO connectors and allows the absorber to be deployed.

**Easy harness inspection**

The sternal and dorsal attachment points are equipped with fall indicators: a red strap appears after a fall to indicate that the harness must be retired.

• **Great simplicity**

NEWTON harnesses have color-coded straps (yellow/black) that allow rapid identification of the upper and lower parts of the harness before donning.

• **Quick donning**

The NEWTON EASYFIT harness is quick-donning, thanks to a vest that helps keep its shape. It is equipped with FAST automatic buckles on the leg loops, allowing the harness to be easily donned with both feet on the ground.

• **For high visibility**

The NEWTON EASYFIT HI-VIZ harness has a fluorescent-colored vest with reflective strips, making the worker highly visible. It makes the worker more visible on a worksite, road or industrial site regardless of the lighting conditions.

### NEWTON European version

#### Fall arrest harnesses

The NEWTON fall arrest harness is comfortable for work and easy to use. It is certified to European and Russian standards.

### NEWTON International version

#### Fall arrest harnesses

The NEWTON fall arrest harness is comfortable for work and easy to use. It offers ergonomic stowage of MGO connectors and has fall indicators. It is certified to North American, European and Russian standards.

### NEWTON EASYFIT European version

#### Easy-to-don fall arrest harness

The NEWTON EASYFIT fall arrest harness is easily donned thanks to its EASYFIT design: a vest ensures the harness keeps its shape and the FAST automatic buckles (sternal and leg loop) allow the harness to be donned with both feet on the ground. It is certified to European and Russian standards.

### NEWTON EASYFIT International version

#### Easy-to-don fall arrest harness

The NEWTON EASYFIT fall arrest harness is easily donned thanks to its EASYFIT design: a vest ensures the harness keeps its shape and the FAST automatic buckles (sternal and leg loop) allow the harness to be donned with both feet on the ground. It offers ergonomic stowage of MGO connectors and has fall indicators. It is certified to North American, European and Russian standards.

### NEWTON EASYFIT HI-VIZ

#### Fall arrest harness with high-visibility vest that is easy to don

The NEWTON EASYFIT HI-VIZ fall arrest harness has a fluorescent-colored vest with reflective strips, making the worker highly visible. It is easily donned thanks to its EASYFIT design. A vest ensures the harness keeps its shape, and the FAST automatic buckles (sternal and leg loop) allow the harness to be donned with both feet on the ground. It offers ergonomic stowage of MGO connectors and has fall indicators. It is certified to North American, European and Russian standards.
