

Silenta 6209 Ear Muffs Ergomax Cap Helmet Mounted SNR 32dB Hearing Protection

The Silenta Ergomax Cap is a high performance helmet mounted earmuff, designed for extra comfort.

It is characterized by its supreme user comfort and unique design.

Using the easy clip-on adapter system, the Ergomax Cap fits to common slotted safety helmets and hardhats on the market.

The Ergomax fits most hard-hats and helmets on the market.

The advanced spring structure and telescopic height adjustment guarantee even tension regardless of the head size.

This is an excellent choice for demanding noise environments.

Slack-free, telescopic 9-point height adjustment and 2 distinct positions: working and parking.
