The NightSearcher HT PRO is part of the NightSearcher SAFATEX ATEX portable range of LED lighting. It is UL, IECEx and ATEX certified as well as CE, RoHS and REACH accredited. It is approved for use in mines and certified to ATEX Zone 0 for gas.

The HT PRO is a lightweight, tough, compact, head torch with dual light output from a CREE XP-G2 high output LED. The two light levels either 220 or 100 lumens are easily selected by using the top mounted tactile on/off switch, protected by a rubberised protective cover. Press the button once to switch the torch on at full brightness, press twice for the low setting and press again for off. The HT PRO has a light beam length of up to 100 metres and a runtime up to 5 hours.

Battery Replacement
